

## **EXCELLENT ARTICLE ON AIR FORCE**

**To the Editor:**

Regarding the recent gas incident near a missile site, thank you for an excellent explanation (Citizen March 26) of how our Air Force can and does take care of its own emergencies.

**AND NOW THAT** that Mr. James McDonald of the U of A has again displayed his ignorance of matters outside his field, could you please print his future, comparable comments in a more appropriate section—say, back nearer the comic sheet—and leave the front page to thoughtful, informative news?
