TUCSON DAILY CITIZEN

ACADEMY OF SCIENCE MEETING

Three Touchy Topics On Agenda

The Arizona Academy of Science will begin its 11th annual meeting here tomorrow on a controversial tone by considering unidentified flying objects, dams on the Colorado River and air pollution.

The academy will meet at the Ramada Inn through Wednesday in association with the Southwestern and Rocky Mountain Division of the American Association for the Advancement of Science. The meeting is expected to attract 350 scientists from five states.

Altogether, 163 papers by scientists from Arizona, Colorado, New Mexico, Texas and Wyoming will be given from Monday through Wednesday. These will include 70 papers by University of Arizona scientists.

Speakers tomorrow on UFOs

will include Dr. Gerard P. Kuiper, director of the UA Lunar and Planetary Laboratory; Dr. James E. McDonald, senior physicist in the UA Institute of Atmospheric Physics and L. J. Lorenzen, international director of the Aerial Phenomenon Research Organization here.

An afternoon panel on the implications of dams on the Colorado River will be moderated by Dr. Paul S. Martin of the UA Geochronology Laboratories.

Papers will be given by anthropologist Robert C. Euler of Prescott College, geologist Stanley Beus of Northern Arizona University, and UA Profs. John W. Harshbarger, zoologist, and Charles W. Lowe, zoologist.

Dr. U. H. Bents, UA physicist, will moderate a session on "Air Pollution—A Problem of the Future."

Speakers will include William F. R. Griffith, air pollution control engineer for Pima County; Raymond Bliss, Tucson; Dr. L. J. Battan, associate director of the UA Institute of Atmospheric Physics; Joseph D. Coons, consulting engineer, American Mining Congress; Kuiper and Bents.

Academy President Russell A. Nidey of the Kitt Peak National Observatory will speak on "Astronomy From Aerobee Rockets" at the academy's luncheon tomorrow.

And 65 junior members of the academy from the state's high schools will give technical papers during the afternoon.

The Southwestern and Rocky Mountain Division is one of three regional divisions of the national AAAS.

Special speakers during the conference will include the national AAAS president, Dr. Don K. Price, dean of the John F. Kennedy School of Government at Harvard University, and the president-elect, Dr. Walter Orr Roberts, director of the Nation-

al Center for Atmospheric Research at Boulder, Colo. The public is invited to attend.

Price will speak Sunday on "Science and Political Progress" at 8 p.m. in the UA Liberal Arts Auditorium and Roberts will speak in the same place at 8:15 p.m. Monday on "Life in a Spaceship Called Earth."

Also as a part of the conference there will be a two-day symposium on Monday and Tuesday on the theme "Water

Supplies for Arid Regions." Harshbarger will be chairman.

Speakers will include Dr. Lloyd E. Myers, director of the U.S. Water Conservation Laboratory, Agricultural Research, Phoenix; J. R. Stinson, associate chief, Office of Atmospheric Water Resources, U.S. Bureau of Reclamation, Denver; and C. W. Lauritzen, research project supervisor Agricultural Research Service, Logan, Utah.
