

Dr. James McDonald

UFO Talk Scheduled At Forum

Unidentified flying objects will be discussed by Dr. James E. McDonald, of the University of Arizona, at the Sunday Evening Forum this weekend.

His topic will be "The Enigma of the UFO's."

McDonald, who is senior physicist in the Institute of Atmospheric Physics, has spent the past 18 months studying the problem of unidentified flying objects.

This summer he visited Australia, New Zealand, Tasmania and Canada in connection with his research. He has also conferred with scientists at NASA and the National Aeronautics and Space Council.

His talk will be given at 8 p.m. in the University of Arizona auditorium.

There is no admission charge, but contributions will be accepted.
