

Provisional Dates and location for the next meeting: October 6th and 7th 2008, Princeton.

Targetry Action Items

Complete MERIT analysis

Extend MERIT-related MHD simulations

Pion acceptance cuts refined, pi production plots updated.

Hg nozzle: engineering design, prototype R&D

Hg erosion

Simulations of splash of Hg in collection pool ($B = 0$).

Update of Study 2 target concept

Powder POP facility commissioned, erosion studies begun.

VISAR data of pulsed wires

W wheel design

Mechanical analysis of Helmholtz coil configuration for wheel target.

W bar in ISIS beam.
